

BENSON'S WOMEN & THE PARLIAMENTARY VOTE 1918 – 1929

Researched by Michael Goss, 2018

These lists are meant to be read in conjunction with the attached 'Key Codes' (see below). All names and voting qualification codes are as given in the Electoral Rolls. Whilst the addresses shown by the Key Codes are those given in the Rolls, the address codes themselves are my own invention; it is hoped that these are easily understood.

An Address Code indicates either the first year a voter is listed or a change of address. Otherwise, their listing is shown by the letter 'v'. An asterisk has been used to indicate that that person is not on the Electoral Roll that year.

At the end of the list of names is the following:

- Total number of Parliamentary voters for each year.
- Total number of women who had the Parliamentary vote.
- Women voters as a percentage of the total vote.

Those listed are as shown on the Electoral Rolls for Benson, which include not only the village itself but certain outlying areas (NB: Berwick and Ewelme have their own registers and so their voters are not included).

The intention had been to list all voters between 1918 and 1928, the years which had the greatest effect on the vote for women, however, two problems intervened:

1. Whilst the 1928 Equal Franchise Act had received Royal Assent prior to that years Registration period, the authorities had not been able to include the new voters in that years register. These voters were to be included on the 1929 register which, exceptionally, would be brought forward and come into effect on May 1st1929 (there was to be a general election later that month). Therefore, the list of voters has been extended by one year.

2. Between 1919 and 1926 there were two registers each year, Spring and Autumn. To research all voters from all registers would not only be somewhat onerous but would make the resultant information unwieldy. I have, therefore, only included the Autumn registers for each year, whilst acknowledging that by doing so, a few voters will escape the net.
